

Press Release – 30 June 2026

INTERMAT Paris, world construction capital in 2027: leading industry names already signed up for this strategic gathering

With ten months to go before its next edition, the organisers of INTERMAT today paid tribute to the commitment and support of leading global machinery manufacturers who have already put their weight behind the event to showcase their innovations and demonstrate the central role of equipment and solutions to collectively build the conditions of a sustainable and operational transition.

This momentum is shared throughout the construction industry to demonstrate that solutions do already exist, are operational and can help to accelerate the low carbon transition and address societal change without compromising productivity and competitiveness.

With 150,000 qualified visitors expected to attend, half of whom work for building contractors and have a decision making role, INTERMAT, which will be 2027's largest gathering of building and civil works companies, stands out as the unmissable venue for top level business dealings.

The sector's leading manufacturers will therefore be out in force to pit their innovations against real-world requirements, discuss their latest low-carbon and multi-fuel technologies and solutions and, naturally, showcase the performance of their equipment in true-to-life worksite conditions.

Among the leading firms that have already confirmed their participation in the show: AMMANN, DOOSAN BOBCAT, EPIROC, FAYAT, HIDROMEK, HITACHI, KOBELCO, KOMATSU, IMER, LIEBHERR, LIUGONG, MANITOU, SANY, SUNWARD, TAKEUCHI, VOLVO CONSTRUCTION EQUIPMENT, YANMAR, WACKER NEUSON and many more.

Three of these exhibitors share their thoughts on their decision to take part in the event:

François Demares, strategic marketing director at Manitou Group: *INTERMAT 2027 is a key event for the Manitou Group, which will be showcasing its innovative solutions for the construction industry. As a global leader in material handling, the group offers high-performance, sustainable equipment through its brands. Committed to the energy transition, it is developing electric, connected machines and promoting the circular economy to optimise costs and reduce environmental impact.*

Stéphane Guillon, Group development, marketing and communication director at FAYAT: *The Road Equipment division of the FAYAT Group comprises a portfolio of renowned brands that include BOMAG, Dynapac, Ermont, Marini, SAE, Secmair, Mecalac and Mathieu. INTERMAT is the ideal event at which to meet a qualified international audience, present our latest innovations in roadbuilding and urban worksite equipment and reinforce our partnerships on the French and foreign markets. Sustainability lies at the very heart of our approach throughout the road lifecycle. Visitors will discover how our innovations are redefining standards for worksites and bringing new value to infrastructure projects.*

Davy Guillemard, chief executive officer at VOLVO Construction Equipment France: *INTERMAT 2027 is a key event for actively contributing to discussions on the future of the construction sector. Volvo Construction Equipment will share its vision of a more sustainable, safer and more efficient industry through concrete and innovative solutions. This exhibition is also a prime opportunity to engage with the ecosystem and collectively support the transformation of practices and worksites.*

INTERMAT 2027 fact sheet

21 - 24 April, Paris Nord Villepinte

Held in conjunction with World of Concrete Europe, the European concrete industry show

1,200 exhibitors, with **68%** from outside France and **40** countries represented

150,000 visitors, of whom **25%** from outside France and representing **130** countries

Central theme: Sustainability through three pillars: **Economic, Environmental and Societal**

5 hubs of expertise: Earthmoving, Demolition and Transportation - Lifting & Handling - Roads, Minerals & Foundations - Buildings and Concrete Sector - New Technologies & Energies

Highlights and special features: Industry Forum, INTERMAT Innovation Awards, Start-up Village, INTERMAT Academy, INTERMAT Demo, Concrete Demo.

About the organisers

COMEXPOSIUM, one of the leading event organisers worldwide, creating events that bring communities together to discover and explore businesses, passions and interests. Comexposium organises more than 150 professional and general public events, covering more than 10 sectors of activity (agriculture/food, retail/digital, fashion/accessories, leisure...). The group connects 48,000 exhibitors and 3.5 million visitors, 365 days a year in 22 countries. Creating experiences and encounters between individuals, Comexposium enables throughout its events (SIAL, All4Pack, Paris Retail Week, One to One Monaco & Biarritz, Foire de Paris, Rétromobile, etc.) and its associated content its communities to be connected all year round through an effective and targeted omni-channel approach.

The former SEIMAT (Association of International Construction Equipment Businesses), now known as C-MAT, has embarked upon a transformation to better reflect developments in the sector and strengthen its stance on contemporary issues. It brings together all the construction equipment, services and solutions brands and equipment manufacturers operating in the French market, and coordinates a network of leading industrial players on the world stage.

C-MAT supports its members through the sector's transformations, particularly in the areas of the energy transition, technological innovation and changing industry practices, with a view to improving productivity and safety on construction sites, and also produces the market's reference statistics.

EVOLIS is the trade association for the construction industry. It brings together, strengthens and defends the interests of manufacturers of capital goods and production machinery, drawing on solid economic and technical expertise. A partner recognised by French and European public authorities, EVOLIS is a member of the Federation of Mechanical Industries (FIM) and represents France on the Committee for European Construction Equipment (CECE). EVOLIS has 450 member companies spread across nearly 400 sites in France. With a sector representing €19.4 billion in turnover, 59% of which comes from exports, and more than 85,000 jobs, EVOLIS speaks on behalf of a strategic industry.
